This message is from an EXTERNAL SENDER - be CAUTIOUS, particularly with links and attachments

Also including Sam Paul, he expressed interest the last time around.

I took a tour several years ago but would be interested to do it again.

Subject: FW: Status & Invitation to Port Of Long Beach Control and Command Center

Hi Kevin,

We were asked to reach out to DataGear (contractor for security cameras on Avalon) to submit a proposal for the additional 200 cameras and they recommended a tour of the long beach command center.

If you are interested, Chris Samayoa contact information is below.

Thanks

Victor ,

AS of this morning all paperwork has been submitted to both the insurance company and the Bonding company and accepted by them . After talking to both , they see no problem With obtaining both the higher insurance coverage and the bond .

I have authorized them to issue the documents, and this should be complete by the end of the week .

Below is an invitation to see the command center . This is a WORLD CLASS facility . We are involved in the Day-to-Day Maintenance

And the design and installation of Cameras , Sensors and wireless communication throughout the POLB.

- **Invitation**
- We're always happy to give our local partners a tour of our facilities, please feel free to reach out with a few dates/times that work for you and I'll get the visit arranged.
- It would also help if you mentioned any particular technologies you are interested in to make sure we cover it.
- Best Regards,
- Chris
